Bay Window Adapter Assembly Instructions

These instructions are additional information to the General Instructions.

Step 1 - Measure the parts for the Bay Window

- 1. Install the mounting brackets included in the Bay Window Kit as shown in Diagram 1. Mount brackets at the x's, placing them on the wall, not on any window trim.*
- 2. Temporarily place the 2 Bay Window pieces (Those with the soft foam center) on the mounting brackets at points A and B. Diagrams 1 and 2.*

Diagram 1

- 3. Measure from the edge of the Bay piece to the outer edge of the window and frame plus 1" or more, based on your needs. Letter C in Diagram 2.*
 - 4. Cut 2 extensions this length for C.*
- 5. Measure the distance between the bay pieces of the middle and cut the extension marked D in Diagram 2.*

Diagram 2

Step 2 - Assembling the Bay Window Adapter and the Window Cornice Kit

1. You will need the parts from the Window Cornice Kit to complete assembly.
2. Remove the Bay parts from the mounting brackets and assemble the entire cornice according to Diagram 3, using a low temperature glue gun.
Parts marked E are the return pieces from Window Cornice Kit. Parts marked A and B are the soft foam center Bay Window Adapter pieces. Parts marked C and D are the extension pieces you have cut from the extensions in the Window Cornice Kit.

Diagram 3

3. We suggest you hang the entire UNDECORATED cornice to make sure it fits correctly before decorating.
4. Decorate the entire Cornice flat according to the directions in the Window Cornice Kit, tucking the fabric strips into the soft foam tuck grooves in the same manner.

Step 3 - Hanging Your Cornice

Hang the completed Cornice, by pushing all mounting brackets into back tuck groove. We recommend asking a friend to assist you in hanging a Bay Window, to avoid damaging yourself or your handiwork. After the Cornice is hung, use the tuck tool and your fingers to make final touch up as needed.

Happy Decorating!!

Our products are covered by a Limited Warranty. Use of any not recommended adhesive voids all warranties. For further information contact Customer Service.
